

ARTEMIDE - ILIO 10 SPECIAL EDITION

฿0.00

Artemide celebrates the 10th anniversary of Ilio with a special autographed and numbered version of 2000 pieces.

Designed by Artemide's founder Ernesto Gismondi, Ilio is an essential and timeless element. It is a synthesis of manufacturing and functional intelligences that is renewed thanks to a refined and sustainable shaded metal finish obtained with PVD technology. This gradation of shades, ranging from warm to cold, gold to silver, interacts with its surroundings by gently reflecting the colours.

Ilio 10 special edition is not only an extremely high-performing and efficient lighting product, but also an iconic and unique object.

In fact, each piece of this limited edition is engraved with both Ernesto Gismondi's signature and serial number.

The finish obtained with the PVD (Physical Vapour Deposition) process is another demonstration of Artemide's attitude towards an increasingly sustainable design and production. Dynamic light management with Artemide App makes each author aware of their own light.

Ilio 10 Special Edition celebrates the past while projecting into the future.
